

THE DELL

Set within mature woodland and on a sloped location, The Dell is a family home like no other. The doors and windows chosen needed to maximise the beautiful natural views whilst being sympathetic to its surroundings.

By using Neo® rooflights with its fine lines, edge-to-edge glazing, and low profile the rooflights sit flush to the roofline with effortless elegance. Internally, the lining to glass® design ensured the open downstairs living areas were flooded with natural light, maintaining a sleek and stylish design.

The Neo Rooflights were the perfect solution to the architect's and client's vision, combining the highest modern performance standards with a frameless, minimalist appearance both inside and out.

A photograph of a modern house at dusk. The house has a dark, gabled roof with several skylights. The exterior walls are a mix of dark wood cladding and light-colored stone. Large glass doors and windows are illuminated from within, showing a bright interior. The house is set on a sloped location with trees and foliage in the background. The sky is a deep blue.

THE
ROOFLIGHT CO.
COTSWOLDS

The Neo Rooflight is the original low profile contemporary skylight, combining the highest modern performance standards with a frameless, minimalistic appearance both inside and out. Complementing modern or traditional architecture, the Neo Rooflight is a perfect accompaniment to any interior design, to introduce natural top lighting into a space.
